Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

## OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Primary Examiner, Art Unit 2836

**Notice of Pre-AIA or AIA Status**

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an interview with Steven Rinehart on October 9, 2018.

The application has been amended as follows:

Claim 1, after line 35 (immediately prior to the "the input panel comprising" paragraph), please insert: "wherein the output panel sockets are electrically connected to the inverter;"

Claim 1, after line 44 (immediately prior to "a plurality of batteries ..."), please insert: "wherein the input panel inputs and socket are electrically connected to a battery;"

Claim 16, after line 37 (immediately prior to the "the input panel comprising" paragraph), please insert: "wherein the output panel sockets are electrically connected to the inverter;"

Claim 1, after line 46 (immediately prior to "a plurality of batteries ..."), please insert: "wherein the input panel inputs and socket are electrically connected to a battery;"

**Reasons for Allowance**

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art does not teach or suggest a power generator for storing, managing and distributing electrical current derived from renewable energy,

comprising, inter alia, electrically powered wheels and the specific combination of outlets/sockets of the output panel and input panel.

The prior art teaches a portable battery system with an input panel to accept power from renewable energy sources, an internal battery, an inverter, and an output panel with various sockets to provide AC power to a load. The prior art does not teach or suggest the housing is self-propelled or that it includes the specific configuration of outlets/sockets as recited in the claim.

It is noted that while the claim uses the term “power generator”, the claimed apparatus stores, manages and distributes power. The claimed apparatus does not actually “generate” power; it receives all power from a source (such as claim 14) connected to the input panel.

Claims 2-15 are allowable due to their dependence from claim 1.

Regarding claim 16, the claim is allowable for the same reasons as claim 1.

Claim 16 repeats the limitations of claims 1, 6 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ADI AMRANY whose telephone number is (571)272-0415. The examiner can normally be reached on Monday - Friday, 8am-7pm.

Examiner interviews are available via telephone, in-person, and video conferencing using a USPTO supplied web-based collaboration tool. To schedule an

interview, applicant is encouraged to use the USPTO Automated Interview Request (AIR) at <http://www.uspto.gov/interviewpractice>.
